WHY YOU SHOULD BUY THE LENOVO FLEX 14

The freedom to get more done

With up to 10.5 hours of battery life, the Flex 14 lets you work, play, and stay in the loop all day, from anywhere. Running low on juice? RapidCharge technology lets you fuel up to 80% battery capacity in just one hour.

Keep your privacy more private

In today's always-on world, online privacy truly matters. That's why the Flex 14 has a convenient TrueBlock Privacy Shutter, enabling you to physically close your PC's webcam whenever you're not using it.

Let your creativity flow

Why type when you can write, draw, or sketch directly onto the Flex 14's screen? With a digital pen (available separately), you can capture moments of inspiration or take notes on the fly—wherever life takes you.

Extremely versatile, very functional

The Flex 14 is designed for you to handle any situation, anywhere. Use it in Laptop mode for everyday computing, Tent mode for sharing things, Stand mode for binge-watching, or Tablet mode for more intuitive interaction.
